

Blue Ant

Update information 13.4

Dear Users,

The current update of Blue Ant, 13.4 once again provides you with new features and visual enhancements.

If you have any questions or suggestions, we would appreciate your feedback via the Blue Ant support page (at www.blue-ant.de).

Wishing you success in your project work with Blue Ant,

Your proventis team.

1. Work-times

Cyclical deadlines for work-time recording

By setting a deadline date for the recording of work-times, you can prevent them from being recorded before or on this date. Up to now, administrators could only set this deadline on a fixed date. You now have the option to configure the deadline as a cycle. In this way, you can, for example, set the end of each month with an offset of three days as the deadline. Please note that before configuring deadlines under MANAGEMENT / DEADLINE, the **Deadline rule** must also be activated under ADMINISTRATION / CUSTOMIZING / GENERAL / DEFAULT-SPEC.

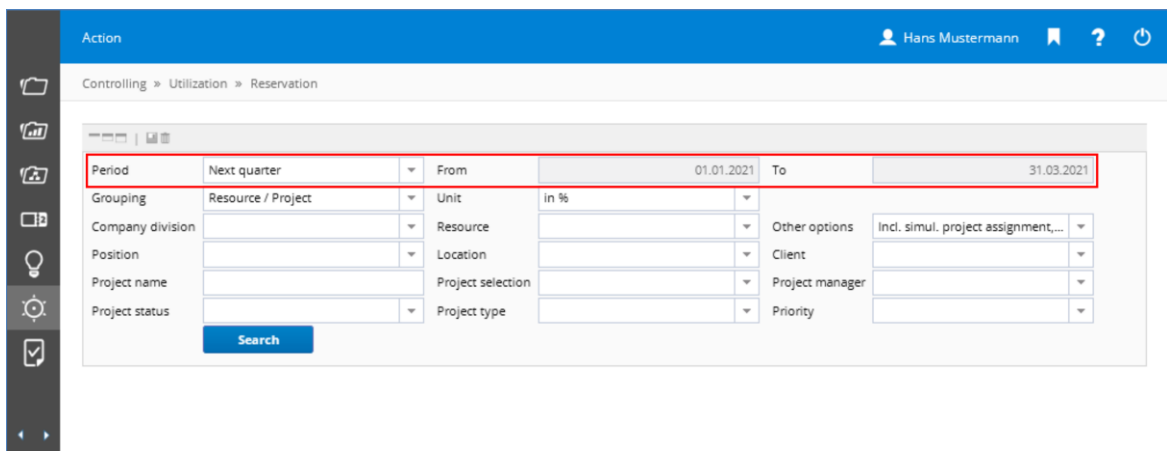

Last change	Last change on Dec 10, 2009 by Altmuth, Peter (!).
Current deadline	30.06.2009
Frequency	Monthly
Time	28.
Offset in days	
New deadline	28.09.2020

Deadline rule with new options

2. Controlling/Work-times

New period filters for editing cross-project reservations

In the screens for cross-project evaluation and editing of reservations, the period has been extended. We have integrated the time period filter here, which is also used in many other areas of Blue Ant, such as for the release of work-times. This allows you to display reservations for the next quarter or year, for example. We have added the filter to the following screens: CONTROLLING / UTILIZATION / RESERVATION, CONTROLLING / UTILIZATION / RESERVATION (PM) and TIME RECORDING / OWN RESERVATIONS.

The screenshot shows the 'Controlling » Utilization » Reservation' screen. A red box highlights the 'Period' filter, which is set to 'Next quarter'. The 'From' date is '01.01.2021' and the 'To' date is '31.03.2021'. Below the period filter, there are several other filters including Grouping, Company division, Position, Project name, Project status, Unit, Resource, Location, Project selection, Project type, Other options, Client, Project manager, and Priority. A 'Search' button is located at the bottom of the filter section.

New period filter in Controlling

- ⚠ Furthermore, reservations can only be edited if they correspond to the reservation period defined in Customizing. To do this, select "Reservation period" in the Period list box.
